

**The Missouri Division of Fire Safety does not endorse or recommend any specific flame retardant products.**

Other state fire marshal offices in the United States issue certificates of registration for approved flame retardant chemicals and for those individuals and companies that apply flame retardant chemicals. All approved and registered flame-retardant chemicals are first subjected to laboratory testing and must satisfactorily demonstrate their flame-retardant capabilities.

The following companies distribute fire retardant treatments for the **treatment of hay, straw, shavings, vegetation, grass, or similar combustible materials within the location** for use in fireworks seasonal retailer locations:

West Coast Fire Shield  
4000 Fruitvale Ave #7  
Bakersfield, CA 93308  
(888)290-3853

It is mandatory that seasonal retailers located in tents provide a certificate or other evidence of acceptance by an organization or laboratory of recognized standing or manufacturer verifying that the tent fabric material has been commercially treated with a flame resistant material.
